

WIRELESS SENSORS

WIRELESS P.I.R. MOTION SENSOR

Wireless P.I.R. motion sensors are used to detect movement within their coverage area.

WIRELESS REMOTE CONTROL

A wireless remote control is used to arm and disarm the system, in addition to the onboard key pad on the control panel, and also has a built in wireless panic switch.

WIRELESS MAGNETIC CONTACTS

Wireless magnetic contacts are installed on and detect the opening or removal of doors, windows, grills etc. Additional wired magnetic contacts can also be connected with a wireless magnetic contact.
